The ART of intercom

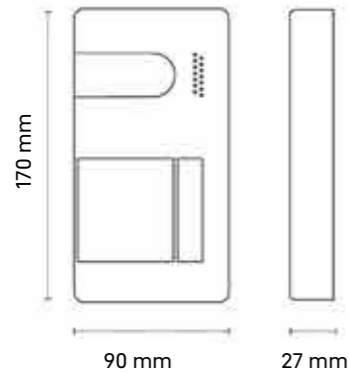

GL-SOUL/1 Door Station

SOUL/1 door station is equipped with a 120° camera and a metallic pushbutton. SOUL/1 has a built-in light sensor that automatically illuminates at night, thanks to the incorporation of a photoelectric cell that also acts as the lighting LEDs for the camera. The door station is also equipped with LEDs indicating the function icons that displays the status of the system. Additionally you can connect to an analogue CCTV camera for added security. The door station is beautifully designed with an anti-vandal surface mounted panel in a zamak graphite finish.

-  120° camera
-  Built-in RFID reader up to 20 users
-  Door lock activation through 12V DC output
Programmable output time
-  Second lock activation through 5Amp relay
Programmable relay time
-  Analogue CCTV camera input
-  Exit button input
Programmable lock and action time

Monitor status signalisation LEDs

GL-ART4

The smallest of the ART family, with the same benefits as the ART 7 but without WiFi. ART 4 has a sleek design with a surface mountable 4.3" screen with touch buttons symbolised by icons for intuitive operation (not a touchscreen).

ART 4 is equipped with selectable image memory with storage up to 100 images in internal memory and video recording via optional SD card which automatically deletes recordings after 30 days. ART 4 has the option of intercommunication between monitors within the same house.

- Additional monitor for GL-SOUL 7W Kit
- "G2+" digital installation of 2 non-polarized wires
- High efficiency loudspeakers
- Audio communications, video and secret door opening
- Video-spy functions, auto-start, doctor mode and do not disturb
- Intercommunication with other units of the house selectively
- Personalization of ring tones
- Connected to entrance door, reducing the use of the doorbell
- Output to auxiliary call repeater
- Image memory, up to 20 photos in internal storage
- Functionality of automatic erase of images after 30 days
- Up to 4 monitors in the same house without additional power

Reduced dimensions, with the same benefits as ART 7

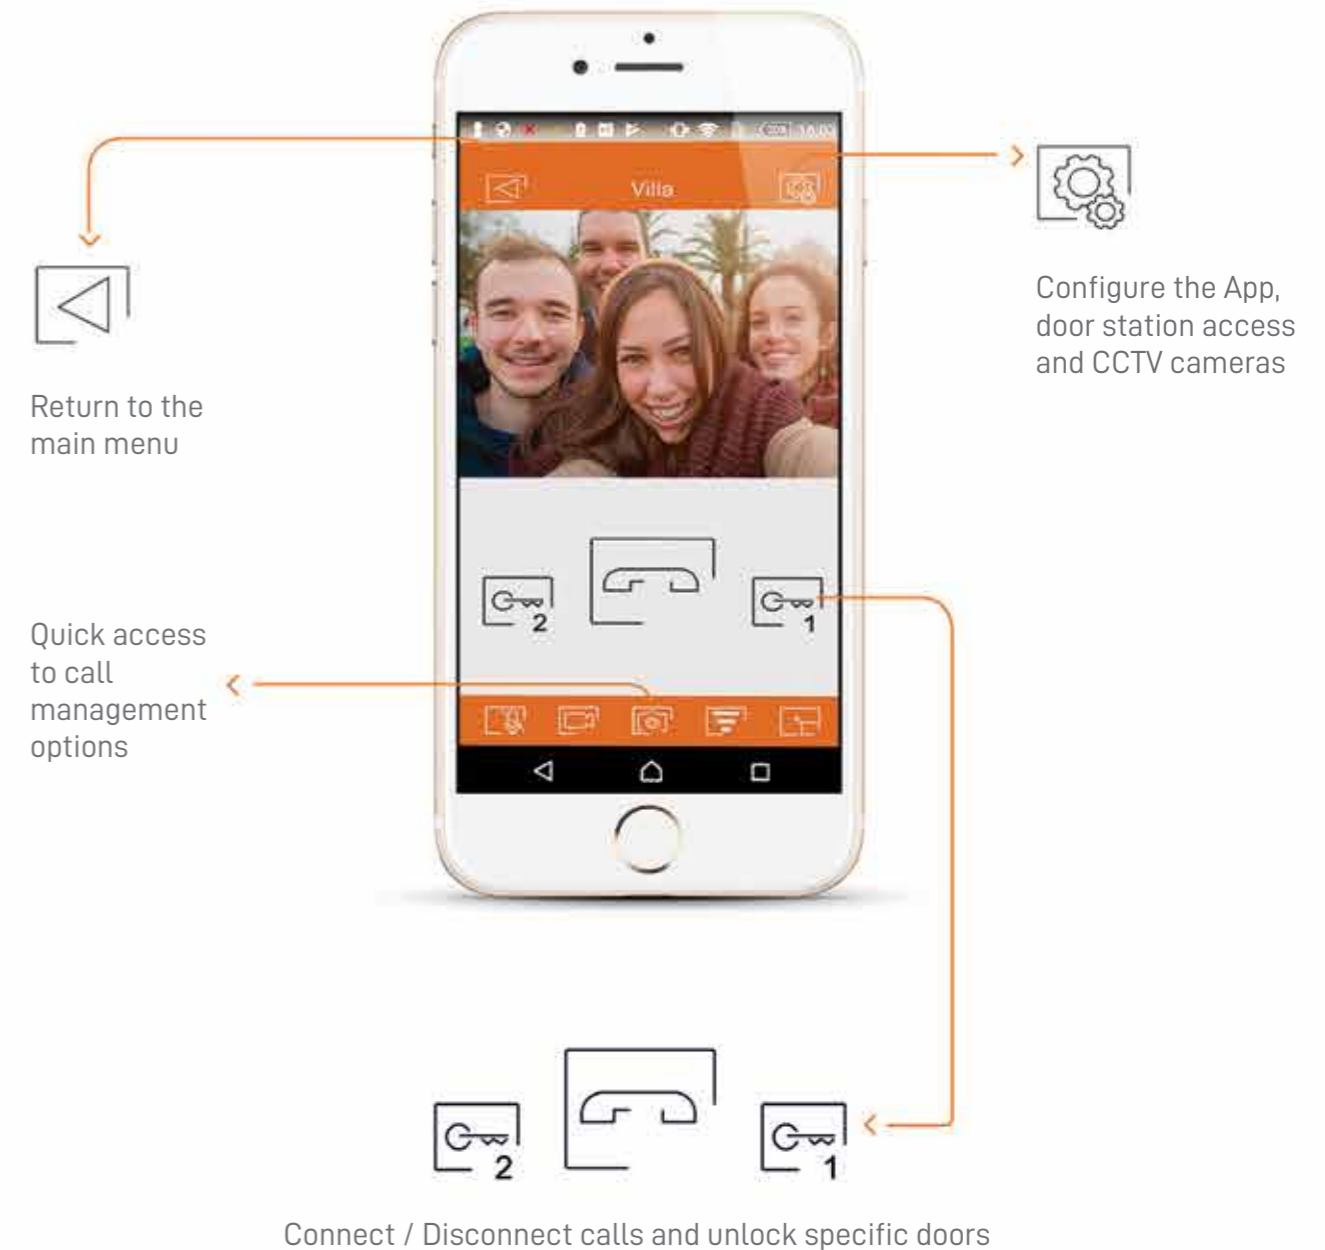

*GL-ART4 Monitor is not included in the kit and is sold separately

They call you and you're not at home ...
with the **G2Call+App** it is no longer a problem.

Intuitive navigation

Salmar SOULART

G2 Call+ APP   

G2 Call+ APP

Solmar SOULART

Make use of the **G2 Call+** App in any of your mobile devices (Android/iOS).

Don't lose the smallest of details, maximize the image captured by the door station.

Establish a PIN for the activation of your doors and equip your system with greater security.

Play the screenshots and / or videos stored.

Manage calls from your different facilities using the same app.

Be informed at all times of events that have taken place in the system.

Modify monitor settings, password, communication mode to "Push to talk", etc.

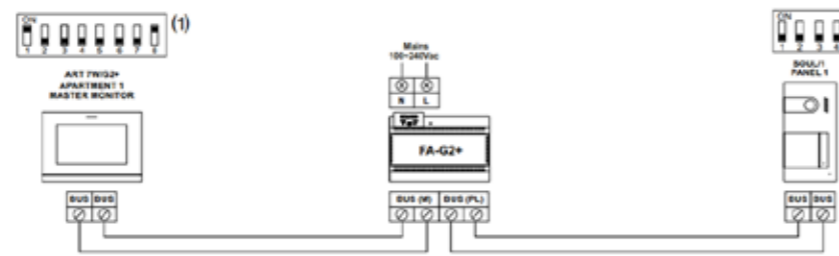

Modify the name of your unit, encryption for the openings, number of door stations, CCTV camera etc.

Schematics
