

Description

Art 7W/G+ video monitor, is a TCP/IP solution device, for the communication in luxury homes, residential buildings, condominiums or office buildings.

Thanks to its technology and Peer2Peer facilities Art 7W/G+ monitors do not require any server on the installation. The protocol of communication is TCP/IP which makes possible to be connected to a LAN together with other IP devices in the same installation.

The system never becomes busy thanks to the multi-channel feature. The touch capacitive screen displaying big icons makes it user-friendly, specially for elderly or disabled people.

Features

- Missed calls image memory: 100 pics.
- Text messages between apartments.
- Intercommunication between apartments.
- Short-cut list of intercom apartments.
