SAFETY INSTRUCTIONS

Warning

- ※ Read these instructions and keep them in a safe place for future reference.
- ※ Please refer all work related to the installation of this product to qualified service personnel or system technician.
- ※ Do not operate the appliance beyond its specified temperature, humidity or power source ratings.
- ※ Securely install the devices on vertical surfaces (solid walls/doors) not prone to vibration or impact.
- ※ Install the devices away from heat sources such as radiators, heat registers and stoves.
- ※ Handle the appliance with care. Do not strike or shake, as this may damage the device.
- ※ **The outdoor station, should be fitted with an approved weather shield if the chosen position is in direct sunlight, or in contact with rain, snow or irrigation sprinkler systems.**
- ※ Do not use strong or abrasive detergents when cleaning the appliance body. When the dirt is hard to remove, use a mild detergent and wipe gently.
- ※ Do not overload outlets and extension cords as this may result in a risk of fire or electric shock. Distributing, copying, disassembling, reverse compiling, reverse engineering, and also exporting in violation of export laws of the software provided with this product, is expressly prohibited.

Packing list

Function Description

Indoor monitor	
Screen	7" TFT LCD screen
Display Resolution	7"(1024*600)
Video decoding	H.264
Intercom Mode	Two-way intercom
Power Consumption	standby mode ≤ 2W, working mode ≤ 5.5W
Power supply	BUS power DC24(DC48V for optional)
Operating Temperature	0 ~ +50°C
Installation	Surface mount
Memory	Memory: itself can save 100 pictures (32K), TF card storage pictures/videos (15s), support for up to 512G TF memory cards
Motion Detection	Human detection
System Capacity	1 monitor to 6 monitors and 1-2 door stations.
Functions	Unlock/Monitor/Intercom/Remote control/Record
Advantages	Clock / Voice Message/Tuya Smart intercom
Weather	Network synchronization of weather information
Video surveillance IPC	via wired connection and Wi-Fi connection
Wiring	2*2Wire (S PoE)
Network connections	2.4G Wi-Fi

Outdoor station	
Camera	1/2.9 inch CMOS camera
Definition	1080P (1920*1080)
View angle	140° (Horizontal)
Leds for night	IR Leds
Day / Night	IR-Cut
Power consumption	Maximum 300mA
Power supply	Supplied from indoor monitor
Operating Temperature	-20°C ~ +60°C
Installation	Surface mount
Access control	IC card 13.56MHz / APP remote
Supported locks	Current lock, NO / NC lock
Outdoor station capacity	100 IC cards; password: 100 groups
