

# LIVE WITNESS

Improve Public Safety

# Current Threats

**LIVE WITNESS**

Improve Public Safety

TERROR  
ATTACKS

GUNSHOTS  
AT CONCERTS

BIG BRAWL AT  
SPORTS GAME

Nowadays, threats in public places are slowly becoming a sad, every-day reality.

- Terror attacks such as bombs at airports
- Big brawl at a sports stadium
- Gunshots at concerts & place of worship

## Improve Public Safety

Public incidents involving innocent victims are dramatic and requires urgency. Fortunately, we can help avoid such events using modern technologies.

“ **OUR GOAL** is to give people the tool to help one another ”

“ What would you do in these kinds of situations, do know where to report it? ”

**When you see**

**Suspicious person**

**Un attended item or baggage**

**Violence/brawl**

**Active crime/Active shooter**

**Medical emergencies**

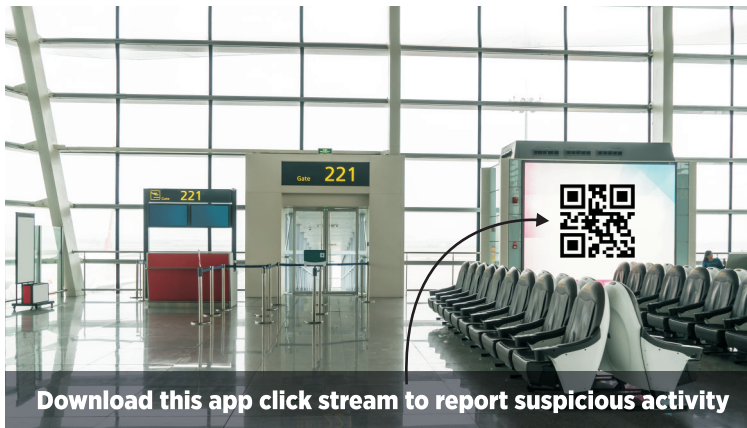

**Feeling unsafe**

# How LIVE WITNESS works

## Digifort's "Live Witness"

app is a value added application to our VMS. Its a revolutionary concept turned in to reality for public safety & security of a venue.

## Collaborative Security.

Developed for active population in the venue or public places, by downloading the app they are ready to connect in order to assist in their security efforts.

The concerned visitor can download the live witness app by using QR codes available at the venue and / or ticket stub. (Here is an example. Airports, Back of spectator's chairs and Ticket Stubbs)

When people witnesses some behavior that concerns them (Security or Medical), they can open the App, it will start to stream in live mode video, audio and GPS location via wireless to the security console of the venue.

This allows the operator to have assisted views, which are not possible with existing installations of cameras – we call it first person perspective view.

## Features:

- ✓ Stream video and audio from your live witness phone;
- ✓ It is recorded at an off-site Digifort's REC server.
- ✓ Alert the control room with an automatic pop-up on Digifort's surveillance client.
- ✓ The operator will be able to speak with the concerned reporting witness by clicking on the image on the screen.
- ✓ Real-time tracking of the person on the map (Patrol, police, staff, etc) who has the Live Witness activated.
- ✓ Boundaries set by the venue as well as schedule.

# Applications:

Outdoor concerts

Public venues

Stadiums

Airports

Safe city

Prisons

Can you  
see what's  
around you?

Pay  
Attention.
