

NEXI-CLT-PRO-27

Small Form Client Workstation

Shuttle® **xpc**

DESCRIPTION

The NEXi (**CLIENT-PROFESSIONAL**) is a high-performance workstation built on the latest Shuttle **XB860G2** barebone platform, engineered to drive up to four independent **4K** displays with smooth, stable output.

It offers robust expandability for advanced graphics acceleration and emerging AI-driven processing workloads. Integrated with a low-profile NVIDIA GPU, it delivers accelerated graphics performance and enhanced multi-display capability.

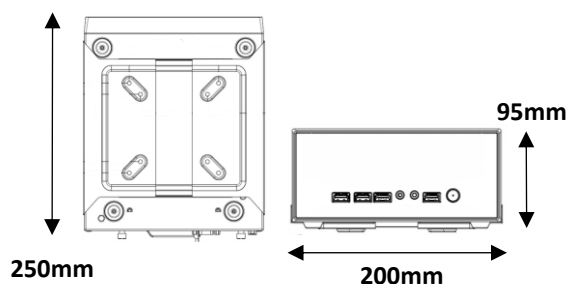

The system supports **4K** resolution across multi monitor configurations and includes comprehensive BIOS controls with hardware monitoring features for reliable commercial deployment.
